Pixoroo — How to Upload Images & Enter Competitions

Member Guide

 This guide assumes you're already signed up and confirmed as a Club Entrant on Pixoroo. If you haven't done that yet, see the “How to Sign Up” guide first.

1. Logging In & Selecting Your Profile

1. Log in at pixoroo.com/public/account/login using the email address and password you registered with.
2. You can update your profile details — name, capitalisation preferences, distinctions — at any time via My Account. The Club can't make changes on your behalf.
3. On the Select Profile screen, click the Club Entrant tile to enter the Conwy Camera Club competitions portal.

2. Finding a Competition to Enter

1. The Club Entrant portal lists competitions currently open for entries — check back if you don't see one yet.
2. You can only submit images to competitions relevant to your grade — e.g. an Aspiring member won't be able to enter images into the Advanced category, even if it's the same competition.
3. Click the competition you want to enter. You'll see a summary — name, type, category, number of images allowed, and closing date — along with the Competition Rules & Guidelines. Read these carefully before continuing.

3. Accepting the Competition Rules

Read the Competition Rules and click to accept them — the button will turn green. You can't upload until you've done this. Then click Upload/Edit Entries to move on to the upload screen.

 Not following the competition rules may result in your images being disqualified. The Competitions Secretary may contact you to verify any images if needed.

4. Uploading Your Images

 Image requirements: maximum dimensions 1600 pixels horizontally in Landscape format and 1200 pixels vertically in Portrait format, maximum file size 2 MB, sRGB colour space required.

Important: image titles must be in CAPITALS, with no author name, number, or underscore — this is exactly how your image will be shown to the judges.

1. Click Upload Image for each entry slot, then browse to and select your file.
2. Type your title into the field below the image, in CAPITALS.
3. If an image doesn't meet the size or dimension requirements, you'll see a warning (“Wrong image size and/or dimensions”). Fix the image and click Upload different image to try again.

5. Completing & Confirming Your Entry

1. A successful upload shows a thumbnail alongside your title — check it's correct before moving on.

2. Once all your images are uploaded, click Complete.
3. You'll see a confirmation screen listing all your entries and titles. Click Review to go back and make changes, or Confirm to submit.
4. You'll receive a confirmation email — keep it as proof of entry. You can still revise or replace any entry up until the competition's closing time.

6. Good to Know

- Entries can't be submitted after the closing date — the competition disappears from the portal once it closes.
- The title shown to judges is taken from your file's name by default — rename your files before uploading, or edit the title field afterwards.
- Resize images before uploading (max 1600 × 1200 px, 2 MB) — Lightroom, Photoshop, or similar can do this for you.
- Titles must be CAPITALS only — no name, number, or underscore.

7. Getting Help

- **Competitions Secretary** — competitions@conwycameraclub.com (uploading, entering, and general Pixoroo questions)
- **External Competitions Secretary** — ext.competitions@conwycameraclub.com (external competition selection specifically)
